

Design your own Victorian Easter Egg!

The Victorians were responsible for starting many traditions we do today. Most people know that decorating a Christmas tree was made popular by the Victorians BUT did you know that the Victorians also decorated trees at Easter? They would decorate small eggs and hang them from their 'Easter Trees'. Below you can design your own colourful eggs on the blank patterns. You may not have a 'Easter Tree' in your house so once you have decorated both sides, cut them out and maybe try hanging them on a tree near you.

Top Tip

Traditional eggs:

Some of the items that were on these decorations were things like rabbits, birds, people and pretty patterns. They could also have beads or pieces of lace stuck on them.

Make it your own:

Why not design one egg like the Victorians and the other one however you want?!

Make sure you ask an adult for help with cutting things out!

Bonus task!

Once you have completed and hung your eggs up, we would love to see them!

If you ask your adult nicely, they may share a picture of your finished egg on social media and tag us in it.
